

Stewards of Our Strengths

Sunday, September 17

8 am to 2 pm

Hyatt Regency Atlanta

Atlanta, Georgia

ICSC and Catholic Life and Faith are again partnering to present the 2017 *Stewards of Our Strengths** pre-conference workshop before the 55th Annual ICSC Conference. Only available to ICSC conference registrants, this session builds on the great response and feedback from the last two year's preconference workshops! Given by Leisa Anslinger, attendees at this preconference will learn how parish and diocesan leaders are leading their people to be good stewards of their strengths, and leave equipped to start or sustain strengths development in their communities.

All participants must complete the StrengthsFinder® talent-identification survey before the preconference. For those who are new to strengths, a virtual *Introduction to Strengths* session will be offered prior to the conference to ensure all attendees will benefit from this special event. All participants will receive a needs survey in advance of this preconference in order to structure this workshop to ensure the best outcome for all.

*Stewards of Our Strengths** will take place on Sunday, September 17 from 8:00 am to 2:00 pm at the ICSC Conference Hotel and before the ICSC conference begins at the Hyatt Regency Atlanta in Atlanta, Georgia. A schedule of the day is below. [Registration is now available on the ICSC website here.](#)

The registration fee for this special event is \$125, and is only available to ICSC conference registrants. In addition to the *Stewards of Our Strengths** experience, the registration fee includes the Bridges Leadership Series workbook, **Building Bridges to the Heart of Your People**, equipping participants to quickly and effectively take their experience back to their parish or diocese and put their new knowledge into action. [Click here for more information on the Bridges process](#), including extensive support materials.

The StrengthsFinder® talent-identification tool is used by hundreds of parishes throughout North America to help parishioners discover, develop and become better stewards of their talents, not only in their parishes but in all aspects of their lives. The process strengthens the ways in which people live as good stewards at home, work, school, in their parish and in the world. Ministries and organizations thrive when people draw on their greatest talents and partner with others in service. The parish becomes more engaging as parishioners more deeply belong within it, recognizing the community as a place in which every person has something to contribute.

*Registration for this pre-conference session is \$125, and available only to ICSC conference registrants, and seating capacity for *Stewards of Our Strengths* is limited. Register below to ensure your place in this special opportunity!
