

A vibrant stained glass window depicting St. Francis of Assisi. He is the central figure, shown from the waist up, wearing a brown habit with a yellow sash. He has a serene expression and a halo behind his head. His right hand is raised in a gesture of blessing, with his index and middle fingers extended. The background is filled with colorful geometric patterns in shades of blue, green, and red. In the lower portion of the window, several white doves are depicted in flight, symbolizing peace. The overall style is traditional and detailed.
